

PACKAGING ENGINEERING BILL OF MATERIALS & TECHNICAL SPEC SHEET

1. STRUCTURAL GEOMETRY & SUBSTRATE

Packaging Template Name	Burger Clamshell Box (burger-box)
Finished Outer Dimensions (L × W × D)	120 × 120 × 70 mm
Material Caliper (Board Thickness)	1.2 mm
Recommended Substrate Grade	320 GSM Kraft-back Folding Boxboard (FBB) - Food Grade Grease-Resistant Coated
Flat Blank Bounding Envelope	650 mm × 1087.8 mm
Net Carton Surface Area	4772.5 cm² (477246 mm²)
Sheet Nesting Area Efficiency	67.5% (Gross: 7070.4 cm²)
Estimated Blank Weight	~152.72 g (per carton blank @ 320 GSM)

2. DIE TOOLING & FINISHING REQUIREMENTS

Total Steel Rule Cut Length	3353 mm (3.35 m linear)
Total Matrix Crease / Score Length	2932 mm (2.93 m linear)
Total Face Panels / Flaps Count	9 panels (3 glue/dust flaps)
Cutting Die Type Recommendation	Flatbed Laser-cut Steel Rule Die (23.8 mm rule height, 2 pt knife)
Creasing Matrix Recommendation	Pertinax counter-plate / Phenolic matrix channel (0.4 × 1.3 mm)

3. ARTWORK & REGULATORY COMPLIANCE ASSETS

Placed Brand Graphics Count	0 assets on packaging face polygons
Color Model Specification	CMYK Process Printing + Pantone Special / Spot UV / Matte Aqueous
Barcode Verification	ISO/IEC 15420 / GS1 General Specifications (Grade A/B scannable)
Food Contact Certification	FDA 21 CFR 176.170 / EU Regulation 1935/2004 Compliant
